

## Testimonials

MORGAN  
MAXWELL  
★★★★★

SkillBridge Global has truly transformed my career journey. Before joining, I had the passion to grow in tech but lacked proper guidance. From the very first day, the team made me feel supported, motivated, and confident in my abilities. Their teaching style is practical, hands-on, and focused on real-world skills that employers actually look for.

HENRIETTA  
MITCHELL  
★★★★★

Joining SkillBridge Global was one of the best decisions I have ever made. I strongly recommend it to anyone who wants to upgrade their skills, build confidence, and open doors to global opportunities.

A complete program designed to prepare students for careers in cloud engineering. Students learn AWS, Azure, networking, serverless architecture, DevOps, Docker, Kubernetes, and infrastructure automation

### 6 Months Curriculum & Detailed Outline

- Month 1: Cloud fundamentals, Linux
- Month 2: AWS/Azure core services
- Month 3: IAM, VPC, EC2, storage
- Month 4: Serverless & architecture
- Month 5: CI/CD fundamentals
- Month 6: Deployment project

Registration: \$300-Fees:\$2000

### 9 Months Curriculum & Detailed Outline

- Includes 6-month modules plus:
- Month 7: Docker, Kubernetes
- Month 8: Terraform & IaC
- Month 9: Cloud security + multi-cloud project

Registration:\$300-Fees: \$3000

## for DATA SCIENCE: How it Works for Developers?

### DATA SCIENCE & ARTIFICIAL INTELLIGENCE

A comprehensive program covering Python, data analysis, machine learning, deep learning, and AI systems. Ideal for students aiming for careers in machine learning engineering and AI development.

#### 6 Months Curriculum & Detailed Outline

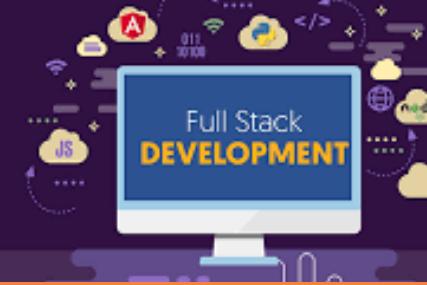

- Month 1: Python programming
- Month 2: Statistics & mathematics
- Month 3: Supervised ML
- Month 4: Unsupervised ML
- Month 5: Data visualization
- Month 6: ML project

Registration: \$300-Fees: \$2500

#### 9 Months Curriculum & Detailed Outline

- Includes 6-month modules plus:
- Month 7: Deep learning, CNNs & RNNs
- Month 8: NLP & AI models
- Month 9: Capstone AI project

Registration: \$300: Fees: \$3750

### FULL STACK WEB DEVELOPMENT

Learn to build complete web applications from front-end to back-end using modern technologies such as React, Node.js, Express, and MongoDB.

#### 6 Months Curriculum & Detailed Outline

- Month 1: HTML/CSS/JavaScript
- Month 2: React basics
- Month 3: Node.js & Express
- Month 4: MongoDB
- Month 5: APIs + Auth
- Month 6: Full deployment project

Registration: \$300-Fees: \$1500

#### 9 Months Curriculum & Detailed Outline

- Includes 6-month modules plus:
- Month 7: Advanced React + Redux
- Month 8: DevOps integration
- Month 9: Client project
